

Executive Summary

Marathon Group Corp. (OTCPK PDPR)

Marathon Group Corp., a Connecticut based Software Company is engaged in web property development focusing on solving problems faced by small and medium size businesses in getting customers and generating revenue.

The company has developed two prong strategies at capturing growth:

1. Marathon Group Corp seeks to transform the way POS systems function.
2. Provide solution-based advertising and marketing Platform that seeks to empower advertisers, business owners. We deliver services and educational opportunities that are effective, easy to understand, and geared to helping business owners become more competitive in their respective industries.

POS System

- The issue is that certain enterprises are primarily cash-only business. It creates many issues - from security to other banking challenges.
- Digital currencies may solve some of this industry's woes by becoming an alternative to cash payments.
- Approximately 75 percent of customers prefer to pay with credit or debit cards, with only 11 percent preferring to pay with cash.
- These enterprises have great difficulty paying their expenses. utilities, tax assessors and vendors would much rather not be paid in cash, and some vendors may not even accept cash payments.

The POS system is a unique platform that makes complex operations simple and streamline workflows and help small retail stores grow. It enables the store owner to manage the front end and back end of his retail store.

Marathon Group Corp. is aggressively interested in integrating crypto and blockchain technology in our POS system soon. We plan to play important role in this disruptive technology in our software platforms.

Our POS system will be on <https://eWalletgold.com>. This platform will be used to solve the problems some of the retail store owner face daily; the inability to remit funds via regular banks. Our platform will provide affordable, cost effective ways for customers to transfer, send and receive funds through crypto technology.

Second prong strategy is to provide solution-based advertising and marketing Platform that seeks to empower advertisers, business owners. We deliver services and educational opportunities that are effective, easy to understand, and geared to help business owners become more competitive in their respective industries.

The plan is to globalize local business listings through <https://xperiorlist.com> by proving uniquely easy-to-use platform that allows users to control their marketing and sale activities. The platform comes with dashboard designed for small business owner to conduct business with the state-of-the-art user interface, making the experience intuitive and user-friendly.

The platform now offers business owners the opportunity to take things to the next level by hosting and promoting upcoming events directly on their

business listings which gives them awesome control over listing and how to manage them.

We are constantly evolving and improving, our mission is to empower small businesses, continues to be inspired by their significant impact on an individual, local and national levels.

- Provide small business marketing solutions
- Help connect small business with customers
- Provide affordable advertising costs
- Help businesses get listed and found online.
